

**The 1st OpenGENE Young Investigator Workshop in Baltic Region
August 22-26 2010, Tartu, Estonia**

“GWAS: from genotyping to sequencing”

To whom: PhD students, Post-docs and young researchers working on the field of functional genomics and complex phenotypes

Where and when: In Estonia, in the beautiful university town Tartu, August 22-26, 2010.

The structure of the meeting:

- **The keynote speakers**
- **Presentations from participants**
- **Brainstorming and discussion sessions**
- **A lot of entertainment**

Topics of the meeting:

- **DNA genotyping**
- **Whole-genome sequencing**
- **Exome sequencing**
- **Methylome sequencing**
- **Metagenome sequencing**

On behalf of the OpenGENE workshop team:

Riin Tamm, riinusch@ut.ee

Andres Metspalu, andres@ebc.ee
